

The radar chart compares five models across five dimensions. The dimensions are: Individual Utility Maximization, Strategic Equilibrium Focus, Strategic Influence, Uncertainty Evaluation, and Social Welfare Maximization. The models are: No Model (grey dashed), Representative (blue dashed), Representative (yellow solid), Representative (yellow dotted), Mechanistic (red dashed), and Control (green dashed). The chart shows varying strengths for each model across the dimensions, with concentric circles at 25%, 50%, 75%, and 100%.
